

By PeopleGrove

Host Multi-Party Live Events Right From Your Desktop

Not all live events need to happen in-person. As an official strategic partner, PeopleGrove can now configure live events to replicate the best parts of in-person gatherings. And just like that, the show goes on.

PeopleGrove + Brazen: Event Besties

- PeopleGrove's Events module simplifies registration, promotion, and attendance tracking for all of your student and alumni events.
- Brazen replicates networking events end to end, from the welcome video webcast, through the many-to-many timed chats, to the goodbye business card exchanges.

So Many Events, So Many Options

- Host any type of event that connects one, two or more groups of users.
- Imagine: alumni-to-student mass mentoring, alumni-to-alumni speed networking, and even enrollment open houses.

Expedited Configuration

- Enable Brazen inside GroveConnect: Apps and Integrations Marketplace.
- Event packages available for purchase.
- PeopleGrove Support manages the configuration process for you.

Integration requires PeopleGrove's Events module add-on. Contact your PeopleGrove Account Manager to enable this module.

Example Uses

- **Mentoring Mixer**
Students: Make 10 new Alumni connections in 1 hour
- **Small Business Saturday**
Alumni: Meet 5 fellow small business owners in 1 hour
- **Virtual Campus Visit: Welcoming the Class of 2024**
Prospective Students: Meet with Enrollment counselors and current student ambassadors to get the real story.
